

The Imaging & Interventional Techniques seminar, consisting of didactic presentations and interactive workshops, will provide a thorough understanding of the ultrasonic interpretation criteria used to define breast anatomy and recognise changes due to benign conditions and early breast cancers.

Imaging strategies for cancer detection will be reviewed and the use of needle biopsy techniques presented from the viewpoint of providing a definitive diagnosis. Scanning and interventional workshops form an important part of the teaching programme, and all participants will be provided with a comprehensive book of educational resource materials.

FACULTY:

Dr Malcolm Buchanan, Vic Dr Allison Rose, Vic
 Dr Jennifer Cawson, Vic Dr Paula Sivyver, Qld
 Dr Jack Jellins, NSW

VENUE:

The Royal Melbourne Hospital
 Radiology Department
 Grattan Street
 Parkville Vic 3050

REGISTRATION FEE:

EARLY BIRD - \$255 inc.GST (register before 12 April, 2002)
 STANDARD - \$295 inc.GST (registration after 12 April, 2002)

(a tax invoice will be issued upon receipt of payment.)

Registration numbers will be limited to ensure maximum interaction and participation during workshop sessions.

RSVP:

Friday 10 May, 2002
 (Registration limited. Please register early.)

The Breast Ultrasound Seminar - Imaging & Interventional Techniques is an accredited seminar and CME points from the following bodies will be awarded.

- Royal Australian College of Physicians
- Australian Institute of Radiography
- Australasian Society for Ultrasound Medicine
- Australian Sonographer Accreditation Registry
- Royal Australian & New Zealand College of Radiologists

BREAST ULTRASOUND SEMINAR

0800-0830 REGISTRATION & COFFEE

SESSION 1

Welcome address - Jack Jellins

0830-0840
 0840-0910
 Ultrasonic Anatomy & Scanning Techniques (including implants, large breasted women, surgically altered breasts) - Paula Sivyver

SESSION 2

0910-1015
 0910-0940
 0940-1000
 1000-1015
 Sonographic Features of Benign & Malignant Masses - Jennifer Cawson
 Imaging Strategies for Cancer Detection - Paula Sivyver
 Panel Discussion

1015-1045 MORNING TEA

SESSION 3

1045-1230
 1045-1055
 Mammogram & Ultrasound Correlation - Jennifer Cawson

1055-1125
 1125-1135
 1135-1155
 1155-1215
 1215-1230
 Fine Needle Aspiration, Core Needle Biopsy Techniques and Vacuum Assisted Biopsy Technique - Paula Sivyver
 Localisation Techniques - Allison Rose
 Sample Handling - Malcolm Buchanan
 Triage - Which Lesion, Which Method? - Allison Rose
 Panel Discussion

1230-1330 LUNCH

SESSION 4

1330-1630
 1330-1600
 1600-1630
 Workshop Sessions: Film interpretation, "Giving News", Mammotome® Breast Biopsy System, FNA/localisation, Core biopsy
 Panel Discussion
