IBUS - International Breast Ultrasound Seminar
November 17-18, 2006

A lecture and workshop programme
in conjunction with the Polish Medical Society of Radiology
Szczyrk, Poland

Version 3

Friday, November 17

08.00	*Registration*	
09.00	Welcoming remarks	A. Mundinger
09.10	Breast cancer screening	R. Schulz-Wendtland
09.40	Ultrasound physics, anatomy, examination technique	R. Otto
10.30	*Coffee break*	
11.00	Imaging correlation - masses, architectural distortion, microcalcifications	S. Pankl
11.45	Live demonstration: breast and axilla examination, and interventional techniques	C. F. Weismann
12.30	*Lunch break*	
13.30	X-ray mammography BI-RADS (Adapted)	S. Pankl
14.15	Ultrasound BI-RADS (Adapted)	C. F. Weismann
15.00	MR mammography BI-RADS (Adapted)	A. Mundinger
15.30	*Coffee break*	
16.00	The small invasive cancer	R. Otto
16.40	DCIS - a challenge for imaging	A. Mundinger
17.20	Discussion	IBUS faculty
18.00	*Close*	

Saturday, Saturday 18th

09.00	Indications for ultrasound and colour Doppler	S. Pankl
09.40	Interventional techniques - FNA, core biopsy	R. Otto
10.10	Stereotactic and ultrasound guided vacuum assisted techniques	R. Schulz-Wendtland
10.40	3-D/4-D guided breast interventions	C. F. Weismann
11.00	*Coffee break*	
11.30	Ultrasound evaluation of lymph nodes	R. Otto
12.15	Perioperative staging and localization techniques	R. Schulz-Wendtland
13.00	*Lunch break*	
14.00	Case presentations and “hands-on” training	IBUS faculty
15.30	*Coffee break*	
16.00	Local tumour recurrence and postoperative surveillance	A. Mundinger
16.40	New ultrasound technology including 3D/4D breast imaging	C. F. Weismann
17.20	Discussion and closing remarks	IBUS faculty
18.00	Close
