

IBUS: Modern Breast Ultrasound and Other Diagnostic Procedures - Update

A lecture and workshop programme

February 24-25, 2006

Zürich, Switzerland

Friday, 24th February 2006

08.00	Registration	
09.00	Welcome and course introduction	Ch. Rageth
09.10	New German S3 guidelines for ultrasound	H. Madjar
09.40	Standards and guidelines for x-ray mammography	A. Munding
10.10	MRI and MRI-guided procedures: standards and guidelines	L. Philpotts
10.40	Coffee break	
11.00	Breast screening for early breast cancer	R. Otto
11.30	General standards and guidelines for ultrasound	H. Madjar
12.00	Breast ultrasound and ultrasound biopsy techniques	L. Philpotts
12.30	Achieving a correct diagnosis	R. Zanetti
13.00	Lunch	
14.00	Demonstrations – faculty members	
14.30	Breast Centers – the benefits for patients	L. Philpotts
15.00	Imaging follow-up of the postoperative breast	R. Otto
15.30	Discussion	
15.45	Coffee break	
16.15	Interactive “hands-on” workshops with faculty members	
18.00	End	

Saturday, 25th February 2006

09.00	X-ray mammography BI-RADS (Adapted)	R. Otto
09.20	Ultrasound BI-RADS (Adapted)	H. Madjar
09.40	MRI BI-RADS (Adapted)	A. Munding
10.00	Importance of double reading	E. Garzoli
10.20	Incorporating new technologies into practice (Digital, CAD, MRI)	L. Philpotts
10.50	Discussion	
11.10	Coffee break	
11.30	Interventional procedures – cytology	R. Otto
12.00	Interventional procedures – core biopsy	E. Durante
12.30	Interventional procedures – tissue sampling of breast lesions and lymph nodes	Ch. Rageth
13.00	Lunch	
14.00	Demonstrations – faculty members	
14.30	Controversies in histology from percutaneous biopsy	L. Philpotts
15.00	Underestimation of breast pathology with needle biopsy sampling	M. Fehr
15.30	Multifocality, multicentricity, staging and planning for surgery	E. Durante
16.00	Case studies, BI-RADS ranking - faculty members	
17.00	Conclusion
